Diogo Falcão

Mobile & Full Stack Developer

Full Stack Developer with a strong interest in mobile development. Completed a 2-month apprenticeship as an Android Developer in Sky, gaining real-world experience in a large company environment. During my Bachelor's degree, I developed full-stack applications using Python, Java, Kotlin, various database technologies, as well as React, React Native, and Figma. Currently, I am pursuing my first year of a Master's in Communication and Web Technologies at the University of Aveiro, focusing on front-end and mobile development.
